

My Stay at Home Diary, Lopii Productions, Canada

Addressing the Global Pandemic Through Kids' Eyes, Created by Georgina Lopez, Rennata Lopez & Kristen McGregor

“My Stay-At-Home Diary (10 x 4 min) is a kid-led docuseries that takes us into the lives of 10 different kids from around the world. In each episode, we'll meet a featured kid between the ages of 9 to 14 years old and their families. Through their POV, we'll see their lives, hear their worries and learn about what they're doing to have stay busy and have fun during this time of COVID-19. As producers of children's content, we want to create a series for kids that is honest and deals with authentic emotions that children across the world are feeling. We want to hand kids the reigns to tell their own stories with the hope of helping kids who watch. In order to meet our desire to portray diverse stories, we'll undertake an extensive casting search. We'll share stories from children of essential workers, only children, children who are in big families, children in busy cities, and children in rural areas. The family of each featured child will be teamed up with a creative producer from Lopii Productions who will work together (over distance) to share their story and put it together. Special care will be paid to the post-production process to ensure that we deliver a product of utmost quality.”
